About Us

FieldX Chillers is a professional chiller and HVAC services company in Dubai, providing reliable cooling and air-conditioning solutions for commercial, residential, industrial and institutional facilities. Our services include chiller installation, repair, maintenance, HVAC systems, AHU, FAHU, FCU, ducting, airside equipment, refrigeration and preventive maintenance solutions. We focus on delivering efficient, dependable and cost-effective solutions that meet the specific requirements of every project.

With a commitment to quality workmanship, responsive service and long-term customer relationships, FieldX Chillers supports businesses and property owners in maintaining safe, comfortable and energy-efficient environments. From routine maintenance and HVAC AMC services in Dubai to troubleshooting and major cooling-system requirements, our experienced team works to keep your systems operating efficiently while minimizing unexpected downtime and maintenance costs.

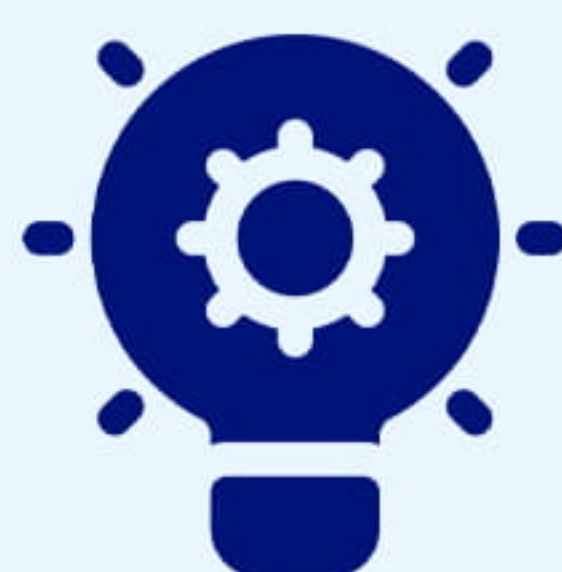

Why Choose Us?

Choosing FieldX Chillers means choosing expertise, reliability, and long-term performance. We bring advanced engineering knowledge, high-quality workmanship, and a customer-focused approach to every project—ensuring your HVAC systems operate efficiently and without interruption.

Our Services

1 | Chiller Services

FieldX Chillers provides comprehensive chiller services in Dubai and across the UAE, supporting commercial, residential and industrial cooling requirements. Our services cover chiller inspection, troubleshooting, repair, installation, overhaul and preventive maintenance, helping maintain reliable cooling performance and efficient operation. We work with different chiller systems and associated equipment to address routine maintenance requirements as well as complex technical challenges.

2 | AHU, FAHU & FCU Systems

FieldX Chillers provides professional AHU, FAHU and FCU services in Dubai and across the UAE, supporting commercial, residential, industrial and institutional HVAC requirements. Our services include installation, inspection, repair, cleaning, maintenance and performance optimization for air handling units, fresh air handling units and fan coil units. We help maintain reliable airflow, temperature control, ventilation and indoor comfort.

3 | Air Conditioning Systems

FieldX Chillers provides professional air conditioning services in Dubai and across the UAE, offering installation, repair, maintenance, commissioning and optimization solutions for residential, commercial and industrial properties. Our team works with a range of air conditioning systems, including DX units, split AC systems, package units and VRF systems, providing practical solutions based on each facility's cooling requirements.

4 | Cold Storage & Refrigeration

FieldX Chillers provides professional cold storage and refrigeration solutions in Dubai and across the UAE for commercial, industrial, food service, retail and other temperature-controlled applications. Our services cover cold room design, installation, commissioning, refrigeration equipment installation, insulation, temperature control and preventive maintenance. We provide practical refrigeration solutions based on the required storage conditions, capacity and operational requirements of each facility.

5 | AMC & Preventive Maintenance

FieldX Chillers provides comprehensive HVAC and chiller AMC (Annual Maintenance Contract) services in Dubai and across the UAE. Our AMC programs are designed for commercial, residential, industrial and institutional facilities that require planned maintenance and reliable technical support throughout the year. We focus on preventive servicing, system inspections and proactive issue identification to help maintain HVAC and chiller performance.

6 | Comprehensive Maintenance Expertise

FieldX Chillers provides comprehensive HVAC maintenance services in Dubai and across the UAE, helping commercial, residential and industrial facilities maintain reliable and efficient cooling systems. Our maintenance expertise covers preventive, reactive and predictive maintenance, technical inspections, performance evaluation and asset management. We combine planned servicing with technical troubleshooting to help identify potential issues and maintain dependable HVAC operation.

7 | Airside Equipment Services

FieldX Chillers provides professional Airside Equipment Services in Dubai and across the UAE, supporting commercial, residential, industrial, retail, hospitality, and other facilities with reliable air distribution and ventilation solutions. Our air-side services cover AHU, FCU, FAHU, ventilation equipment, exhaust systems, air purification equipment, and associated ductwork.

8 | Chiller Plant & Hydronic System

FieldX Chillers provides professional Chiller Plant and Hydronic System Services in Dubai and across the UAE, supporting commercial buildings, residential developments, hotels, hospitals, industrial facilities, shopping centers, and large-scale cooling plants.

9 | Ducting & Air Distribution

FieldX Chillers provides professional Ducting & Air Distribution Services in Dubai and across the UAE, delivering reliable solutions for commercial buildings, residential properties, offices, retail spaces, hotels, restaurants, industrial facilities, and other HVAC applications.

Our Mission

To deliver efficient, reliable, and professional HVAC, chiller, refrigeration, and airside services that help our clients maintain comfortable, safe, and well-performing facilities.

Our Vision

To become a trusted and recognized chiller and HVAC solutions provider in Dubai and across the UAE, known for technical excellence, reliable service, and long-term customer relationships.

Our Value

We believe in delivering quality workmanship, transparent communication, responsible service, and practical solutions while building lasting relationships with our customers.
